WINTER SAFETY TIPS

Don't forget your pet when the weather gets cold!!!

Keep your pets inside with you and your family during the extreme cold weather ~ cats should never be left outdoors and dogs should stay inside unless out for a walk or exercise.

NO MATTER WHAT THE TEMPERATURE IS, WINDCHILL CAN THREATEN A PET'S LIFE!! Rock salt & other chemicals used to melt snow and ice can irritate the pads of your pet's feet. Wipe paws with a damp towel before your pet licks them and irritates their mouth. Store deicing salt in a safe place and wipe your dog's paws ... even after short walks. If your pet ingests rock salt, please call you veterinarian immediately.
